

SPI The Greatest Selection of Conflict Simulations...

THROUGH
JANUARY
1980

257 Park Ave. South, New York 10010 (212) 673-4103

Over 200 titles form Simulations Publications' complete line of games. Every period in history is represented, from 3000 BC to the far future. SPI's boxed games are attractively packaged using a specially designed, compartmented plastic tray. Most of these games are also available at a reduced price as SoftPacks without packaging.

The physical components of SPI games are generally similar, consisting in most cases of a playing map printed on cardstock or heavy paper (usually 22" x 34"), 100 to 400 die-cut cardboard playing pieces, and complete rules. Our SoftPack games are now packaged in a ziplock bag and sold at a greatly reduced price (in many cases, without a cover). Many of our lower priced SoftPack games have 17" x 22" or 11" x 17" maps and 100 to 200 counters. Note that many of these lower priced SoftPack games may also be purchased as a part of a QuadriGame — a set of four related games packaged together

— and each of the four games of any QuadriGame is also available in an individual SoftPack.

Note that the numbers in parentheses following the description of each game reflect the game's relative complexity on a scale of 1 (simplest) through 9 (most complex).

BUY SPI GAMES IN PERSON! If you're in New York City, stop off at SPI's business office and buy the games you want with no waiting (note that individual components are not available at our business office). Come to 257 Park Avenue South (just south of 21st Street) and take the elevator to the 3rd floor. Open for sales between the hours of 9:30 a.m. and 6:00 p.m., Monday through Thursday, and 9:30 a.m. to 10:00 p.m. on Friday.
